Professional Summary

Full-Stack Software Engineer experienced in React, Node.js, Express, MongoDB, Next.js, TypeScript, PHP, and WordPress. Passionate about building practical software and continuously improving as a developer.

Technical Skills

Languages: Java, JavaScript, TypeScript, PHP, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Material-UI, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Passport.js, Socket.IO, WordPress/PHP

Databases: MongoDB, Mongoose, MySQL

Cloud & DevOps: Docker, GitHub Actions (CI/CD), AWS (EC2, S3, IAM), Vercel, Render

Testing & Tools: Git, GitHub, Jest, MySQL Workbench

Work Experience

Softlabs — Software Engineer Intern

Nov 2025 – Jan 2026

Sydney, Australia

- Developed a custom WordPress plugin (**Community Voice**) using PHP, WordPress APIs, and MySQL to manage community requests with structured data storage.
- Built anonymous and identified submission workflows with server-side validation and security checks.
- Developed an internal admin dashboard to manage, filter, and update request statuses.
- Integrated an AI-powered chatbot to improve user engagement and support website visitors.
- Worked with WordPress Plugin APIs, custom database tables, and backend logic while following WordPress coding standards.
- Collaborated in requirement discussions and translated business requirements into working software features.

XFlyve Logistics — Fleet Operations (Part-time)

Oct 2024 – Aug 2025

Sydney, Australia

- Managed daily fleet coordination, driver scheduling, and driver pay calculations using spreadsheets, WhatsApp, and manual operational workflows.
- Identified workflow inefficiencies and built XFlyve, a role-based MERN application to automate job management, driver coordination, and operational records (see Projects).

A Star Infotech — Web Developer

Jan 2022 – Oct 2023

Sri Ganganagar, India

- Built and customized responsive WordPress websites for local businesses and schools using PHP, WordPress, HTML5, CSS3, and Elementor.
 - Added interactive features and dynamic functionality using JavaScript to improve user experience.
 - Maintained existing websites, fixed front-end issues, and implemented client-requested updates after deployment.
-

Projects

XFlyve — Fleet Management Platform (MERN)

[Live Demo](#) · [GitHub](#)

- Designed and built a role-based fleet management web application based on real fleet operations workflows, featuring separate admin and driver portals.
- Designed MongoDB schemas for jobs, drivers, trucks, and proof-of-delivery records, including invoice validation rules for local and interstate deliveries.
- Implemented reporting and data export features, secured the application with rate limiting and Helmet, and added structured logging for monitoring.
- Containerized the application using Docker, automated image builds with GitHub Actions, and performed load testing using Artillery prior to deployment.

Meetify — Real-Time Video Meeting Platform

[Live Demo](#)

- Built a real-time video meeting application using WebRTC for peer-to-peer audio/video communication and Socket.IO for signaling.
- Developed user authentication, meeting history, and REST APIs using Node.js, Express, and MongoDB.

Wanderlust — Accommodation Listings & Reviews Platform

[GitHub](#)

- Developed a full-stack accommodation listing platform with user authentication, authorization, image uploads, and review management using Node.js, Express, MongoDB, and EJS.
- Integrated Cloudinary for image storage, Mapbox for location mapping, and Joi validation to improve data integrity and user experience.

Portfolio — Developer Portfolio

kapilyadav.dev

- Built a responsive developer portfolio using Next.js (App Router), TypeScript, and Tailwind CSS to showcase projects and technical skills.
 - Developed reusable UI components, and implemented metadata and responsive layouts.
-

Education

Master of Information Technology

Completed 2026

Asia Pacific International College, Australia

Bachelor of Technology (Computer Science)

2019

Jodhpur National University, India
